

About Tinytech

"Emerging business striving to make a difference to small enterprises."

TINYTECH UDYOG has been making waves in the vegetable oil and fats industry since 1992. It is synonymous with growth and is often described as the ultimate solution in extraction, refining and oil processing technology.

The company has a leading name in the Indian Oil Mill and Oil Refining sector as topmost manufacturers and exporters of Oil Press Machines, Oil Mill Machinery, Oil Mill Plant, Oil Extraction Machinery, Oil Expellers, Oil Filtration Equipments, Seed Processing Equipments, Oil Refining Equipments & Vegetable Oil Refinery Plants.

Entire Range of milling and refining products are technically advanced exhibiting high quality standards. Our products cover the complete range of the oil milling sector straight from the preparation of seed to filtration of oil and refining of the oil.

Tinytech Udyog has succeeded in heralding a technological revolution in the field of oil milling, cooking oil extraction, chemical and physical refining, dry fractionation of palm oil, dewaxing and winterization of vegetable oils, and allied fields by incorporating latest technological and innovative products. All the turnkey projects undertaken by TINYTECH today reflect the latest, most sophisticated and best available state-of-the-art technology.

The company has decades of industry experience and in-depth knowledge of the product. We personally own and operate an 80-TPD Oil Milling Plant and a 30-TPD Vegetable Oil Refining Plant.

Building the Future

Leading manufacturer of oil mill machinery and oil press machines.

Our Products

Seed Processing Machinery

Seed Processing is the first and most vital step during the oil extraction process. This is the part where the seeds are procured, cleaned, flaked, and cooked so that the oil extraction process can be carried out in a more efficient manner. Seed processing is important so that the final output or the extracted oil is of the highest quality.

- Groundnut Decorticator
- Sunflower Cracker Machine
- Copra Cutter
- Coconut Shredder
- Coconut Grating Machine
- Palm Nut Cracker
- Oilseed Cracker Machine
- Destoner Machine
- Seed Cleaning Machinery

Oil Mills

Our Tinytech Oil Mills are versatile to process many kinds of oilseeds such as Peanuts, Coconuts, Sunflower, Rapeseeds, Cottonseeds, Corn Germ, Palm Kernels, Sesame Seeds etc. At present more than 1500 Tinytech Oil Mills are working successfully in more than 85 different countries of the world. Our tiny oil mills have gained huge and tremendous success worldwide and it delivers best cooking oil.

- Cooking Oil Mill Machinery
- Mini Oil Mill
- Oil Milling Plant
- Edible Oil Extraction Machinery
- Oil Extraction Machine
- Automatic Oil Mill Setup
- Steam Generation Oil Mill Boiler
- Oil Mill Filter Press
- Power Oil Ghani

Oil Expellers

We specialize in manufacturing & exporting of OIL EXPELLERS. Our TINYTECH EXPELLERS are designed using advanced technologies for extracting oil from all kinds of oilseeds and nuts which contain oil content. Crushing capacity for Expeller ranges from 3-TPD upto 50-TPD. Our press machines are durable, heavy duty and non-corrosive. All machines are best designed to suit the needs of industrial applications. This ensures flawless performance with higher production without any breakdown. ROI is very fast from our machinery.

- Oil Expeller Machine
- Palm Kernel Oil Expeller
- Oil Press Machine
- Mini Oil Expeller
- Mini Oil Press
- Sunflower Oil Press Machine

Processing Equipment

We offer Processing Equipments for Oilcake as well as Crude Oils. Oilcake Processing Equipments include the Handling and Material Transfer Equipments for cake. The buyer can also break the oilcake into smaller pieces for easy storage and packing into gunny bags. Bucket Elevators and Conveyors are very useful for this. At TINYTECH UDYOG we also specialize in the Complete Oil Refinery Plants for Edible Oil Processing. We offer Vegetable Oil Refining Plants which range from small scale to medium scale.

- Cake Elevators
- Cake Conveyors
- Cake Filling Bagging
- Oilcake Breaker Cutting Machine
- Oil Neutralizer Equipment
- Complete Oil Refinery Plants

Services

TINYTECH UDYOG believes in good products as well as good service also. We therefore have set up a comprehensive before & after sales service facility and take up installation, commissioning and after sales activity for all our products and systems.

We create value for our customers by giving quality, technically correct, economical and on-time delivery services.

- Turnkey Solutions
- Project Evaluation
- Shipping & Logistics
- Erection & Installation
- Commissioning
- Training
- After-Sales Activity
- Plant Upgradation

Quality Assurance

“Produce finished work that you can justifiably be proud of.”

Whatever the field, Quality has always been at the heart of a company’s performance. Quality is at the forefront of our work process, something that dictates every activity performed. At Tinytech Udyog, our commitment for excellence and passion for quality oil mill products have shown as the way to growth and prosperity. The entire ranges of our products are finished at the apex of latest engineering techniques; making Tinytech Udyog a hallmark of quality.
